

CSP NAMEPLATE

General description of the product

This product can be freely personalised to include the logotype and the name of the sales scheme offered by the showroom. The product material ensures flexibility, hence it can be easily matched to the shape of the bumper (depends on number plates frame). Due to different dimensions of license plates mandatory on different global markets, this product is adaptable to local standards and guidelines. It can be used both outside and inside the showroom.

Application and use instruction

The product, featuring the size adapted to relevant market, is mounted in the license plate frame. The license plate must be removed before the product can be mounted. There are different standards of frames in EU countries, so the mounting method may differ slightly.
